Excellent Results

Our firm has successfully handled many types of legal matters for individuals, families and businesses. Here are just some of the results we have achieved for our clients:

- We obtained a \$250,000 settlement for a woman who was severely injured in an automobile accident. The settlement was for significantly more money than the insurance company offered our client before she contacted our office.
- We brought a wrongful termination claim on behalf of a woman who claimed she was dismissed based on her gender. We successfully took the matter to trial, where we recovered a large sum of money for our client.
- We successfully represented a real estate developer who sought to build a commercial building. We helped our client through all phases of the process, including financing, zoning and construction.
- We have been involved in the administration of many estates, helping family members navigate the probate process and administering their loved ones' estate.
- We have helped many family-owned businesses prepare plans for succession, ensuring that the vision of the founding owners is followed and that taxes are minimized.
- \$250,000 for a man who was severely injured in an automobile accident. The other driver had no insurance, but we made a claim against his employer. The case was settled.
