EXCELLENT RESULTS

Our firm has collected millions of dollars in awards and settlements for people injured in accidents. Here are just some of the recent results we have achieved for our clients:

■ \$250,000 for a woman who was severely injured in an automobile accident. The case settled before trial for significantly more money than the insurance company offered our client before she contacted our office.

■ \$100,000 for a man who tripped and fell in a supermarket. We were able to establish liability through the hard work of our investigative team. The case was settled out of court.

■ \$250,000 jury award for a passenger injured in an automobile accident. Our client declined a low settlement offer from an insurance company, and we were able to successfully obtain a much greater amount through litigation.

■ \$150,000 for an 86-year-old woman who was injured as a result of nursing home neglect. The nursing home initially denied responsibility for the woman's injuries. After we showed our client's injuries were due to substandard care, the case was settled.

■ \$100,000 jury award for a victim of medical malpractice.

■ \$250,000 for a man who was severely injured in an automobile accident.
