EXCELLENT RESULTS

Our firm has successfully handled many types of legal matters for individuals, families and businesses. Here are just some of the results we have achieved for our clients:

■ We obtained a \$250,000 settlement for a woman severely injured in a car accident. The settlement was for significantly more money than the insurance company offered our client before she contacted our firm.

■ We brought a wrongful termination claim on behalf of a woman who claimed she was dismissed based on her gender. We successfully took the matter to trial, where we recovered a large sum of money for our client.

■ We successfully represented a real estate developer who sought to build a commercial building. We helped our client through all phases of the process, including financing, zoning and construction.

■ We have been involved in the administration of many estates, helping family members navigate the probate process and administering their loved ones' estate.

■ We obtained \$150,000 for an 86-year-old woman who was injured as a result of nursing home neglect. The nursing home initially denied responsibility for the woman's injuries. After we showed our client's injuries were due to substandard care, the case was settled.
